11-noon Check-in

Noon, Run/Walk Begins

Danielle is a fun loving, talented young lady who sustained a Traumatic Brain Injury when the jet ski she was a passenger on, collided with another jet ski on Lake Springfield, July 11, 2010.

Danielle remains in a semi-conscious state, and is unable to speak, eat, or move any part of her body on command. She currently receives 24 hour care from her parents and sisters. She also receives multiple therapies daily as well as treatments from world re-known New Jersey doctors, Dr. Fellus, and Dr. DeFina at IBRF. (International Brain Research Foundation). These treatments in particular are not covered through insurance. Please help support Danielle's continued treatment, care needs, and comforts... and please, continue to pray for Danielle.
